

# THE BLAIRMORE ENTERPRISE

VOL. XXIX., No. 45.

THE BLAIRMORE ENTERPRISE, FRIDAY, NOVEMBER 11, 1938.

\$2.00 PER ANNUM

## LOCAL PASTOR MARRIES

The marriage took place at Crossfield Baptist church on Tuesday, November 1st, of Miss Dorothy Mae Stauffer, daughter of Mrs. S. Stauffer, of Crossfield, to Pastor J. W. MacDonald, of Blairmore Baptist church, son of Mr. J. E. MacDonald, of Huxley, Alberta.

The ceremony was performed by Rev. J. H. Pickford, of Calgary, assisted by Rev. M. R. Hall.

Rev. and Mrs. MacDonald have taken up permanent residence in Blairmore.

A stock train from the Peace River district to Edmonton recently represented a record—86 carloads of cattle and hogs, pulled by a double header. The original portion of the train was made up at Dawson Creek, with additional loadings at Grande Prairie, Clairmont, Sexsmith and other points. The trainload represented around \$100,000. The Abarhart government had its way, at least \$14,000 of that would have been directed to the provincial treasury.

## HERSCH GIVEN ONE YEAR

Pleading guilty to the two charges, theft of an auto, being the property of F. B. VanDuzee, of Coleman, and theft by conversion, Herman Hersch, of Coleman, former employee of VanDuzee's, was on Thursday morning last sentenced by Magistrate Gresham to one year's hard labor in Lethbridge jail on the first count and to two months' hard labor on the second count, sentences to run concurrently.

Hersch left Coleman on or about October 17th, to make a business call to Bellevue and Hillcrest, and used his employer's car to make the trip. When he failed to return, the police were notified and they broadcast a description of him and of the car. On Saturday, October 22nd, he was arrested at Moosomin and brought back to Blairmore. He had disposed of the car at Portage la Prairie, where it was subsequently found and returned to VanDuzee.

A new bit of oil drilling excitement has brought some fourteen new families into the Pincher Creek district.

## To Dedicate Blairmore's War Memorial Today

## BLAIRMORE LAD GUN VICTIM

A sad tragedy occurred on Saturday afternoon last while several boys, armed with 22-calibre rifles, were rabbit hunting a short distance north of Frank. A gun in the hands of one of the lads misfired, and after several attempts accidentally discharged, the bullet entering the body of Leonard Kiep, fourteen-year-old son of Mrs. Kiep, of Blairmore, killing him almost instantly. He died before medical aid could be summoned.

Police were called, and together with Coroner F. J. Turner decided an inquest not necessary, as circumstances pointed to an accident.

Leonard was a Grade IX. pupil of the local school, and pupils of the entire school attended the funeral on Wednesday afternoon under the direction of the various teachers.

Following services conducted at the home and graveside by Rev. E. B. Arrol, of the United church, the remains were laid to rest in the union cemetery beside those of his father, who died some ten years ago following an accident at Kimberley, B.C.

The little lad, who was extremely popular with everyone, is survived by his mother, Mrs. Joseph Kiep, residing on Victoria Street east, Blairmore, with whom general sympathy is extended.

## IDAHO WILLING TO CO-OPERATE

It was learned that if some fair definite assurance can be given by British Columbia that improvements on the north and south highway between Creston and Port Hill, Idaho, will be maintained in 1939, there is good prospect that the U. S. authorities will oil, standardize and surface the link between Copeland and Port Hill, bringing it up to a standard equal to the road between Copeland and Kingate, and will redesignate the Copeland-Port Hill link as the official continuation to British Columbia of Highway No. 95, which is in the official north and south road from the Idaho south boundary and heavily travelled by U. S. autoists.—Creston Review.

The Prescott-Ogdensburg car ferry in Ontario is declared to be the most up-to-date towing combination in the world. Crossing the St. Lawrence River, the ferry can meet the car-boat without an actual pilot on duty.

A report released from the Nova Scotia department of highways revealed that Home Improvement loans up to August 31st in Pictou County towns, with a population of more than five thousand, amounted to \$465,632, loaned to 162 persons.

What is known as the Mormon Church Ranch and the Seymour Smith Ranch in the Cardston district has been gazetted as a game preserve. Recommendations for such preserve was supported by Ducks Unlimited (Canada), head office in Ottawa, with branches in the three prairie provinces. The area comprises about seventy sections.

Jack Crawford, Wilson Gouge and Joe Shearlaw, of the Drumheller district, have been appointed a committee to co-operate with others in the matter of preparing a brief on the coal market situation, which is aimed to be circulated among the Rotary clubs of Ontario, with a view to assisting Alberta to secure a larger share of the Ontario coal market.

Commenting on Hallowe'en damage, The Fernie Free Press remarks: "If the lads of the town are not a little more appreciative of the efforts of those who go out of their way to give them a good time, it might be a good scheme to swear in about fifty extra police and provide them with horsewhips for the occasion. A little application of the birch might teach the unruly a good lesson."

## CENTRAL UNITED CHURCH

BLAIRMORE

Rev. E. B. Arrol, B.A., Minister

## Sunday services

11.00 a.m., Senior school.

2.00 p.m., Junior school.

7.30 p.m., Public Worship.

Wednesday, 8 p.m., Prayer service.

## ST. LUKE'S CHURCH NOTES

Rev. J. R. Hague, Rector

## Services Sunday next:

10.00 a.m.—Sunday School.

11 a.m., Morning service.

## REGULAR BAPTISTS

Pastor J. W. MacDonald, Minister

## In the Union Hall.

Services Sunday next:

11 a.m.—Senior and Junior Sunday school.

7.30 p.m.—Evening service.

Thursday, 7.30 p.m.—Prayer and Bible study.

You are cordially invited to our services.

## SALVATION ARMY — COLEMAN

Capt. and Mrs. F. Hewitt in charge

## Sunday services: Directory class

10.30 a.m., Sunday school 3 p.m., Salvation meeting 7.30 p.m. Come and enjoy an hour in God's house.

Monday at 7 p.m.: Y. P. Legion

Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend.

Friday, 7 p.m.: Young people's meeting.

## CHURCH OF THE NARAZENE

Main Street West, Coleman

Pastor, Rev. C. Helen Mooshian, B.A.; assistant and organist, Gunnell Berglund. Sunday services—

Sunday school at 11 a.m.

Morning worship at 12 noon. Evangelistic service at 7.30 p.m.

Tuesdays, 7.30 p.m., Prayer Meeting.

Fridays, 7.30 p.m., Bible Study.

Strangers and visitors always welcome.

Sir William F. Coaker, K.B.E., passed away in hospital in Boston recently. The remains were shipped to Newfoundland for burial. Coaker was one of the most outstanding figures Newfoundland ever produced. He was born at St. John's October 19, 1871. In 1908 he established the Fishermen's Protective Union and organized union stores around various parts of the east coast. In 1912 he was elected to parliament as fisherman's party leader, together with all candidates put up by his party. He was knighted in 1923.

Members of the East Kootenay Power Company's line repair gang, who for the past three weeks or more have been busy extending a line from the main, about a mile south of Cowley, to the airport intermediate radio station, about a mile northwest of Cowley, completed their work the early part of the week, and on Tuesday returned to Fernie. Passing through The Pass, they were apprehended as they represented a band of hoodlum Mennonites having developed a most luxurious assortment of whiskers. We understand that police were called as they approached and tried to enter various homes at Fernie, and in some cases they were not permitted to enter until after having patronized the barbershops.

WORLD HAPPENINGS  
BRIEFLY TOLD

F. W. Nicols, director of the Federal Housing Act, reported 23,000 home improvement loans have been repaid by Canadian borrowers.

Canadian mines produced 1,112,828 tons of coal in September, compared with 1,421,383 in September, 1937, the Dominion Bureau of statistics reported.

An urn containing the heart of the late Dowager Queen Marie of Roumania was enshrined in a simple ceremony in the chapel of a monastery overlooking the Black sea.

The war scare over, German buyers have signed contracts for huge orders of New Brunswick pulpwood, according to information at Saint John.

Authorities of Nazi-controlled Danzig have notified all Jewish doctors in the Free City they will have to cease practicing by the end of this year.

Among the sport events listed for New York during the world's fair is a 72-hole medal play tournament for professionals. It will be played in June, 1939.

General Joseph Degoutte, former commander of the Allied armies in the Rhineland, died at the age of 72. Death came at his home in the little village of Charnay, near Lyon, France.

Soviet Russia's plan to throw up a protective wall of colonists along the far eastern frontiers facing Japan was reflected in statistics showing Vladivostok's population has increased 150 per cent since 1926.

Demand for tickets for the Olympic games to be held at Helsinki, Finland in 1940 has been so great a sellout is anticipated by J. W. Randall, president of the Olympic organizing committee.

The Japanese finance ministry called in one-cent copper coins and put aluminum coins in circulation in their stead. This will permit an annual saving of 900 tons of copper, which the army needs.

## Troops Leave Spain

Reported Franco Admits That Canadians Are The Best Fighters  
Mrs. Becky Ewen, national organizer of the friends of the Mackenzie-Papineau Battalion, said that about 800 Canadians are being demobilized from ranks of the Spanish Loyalist forces and will be in their Canadian homes by Christmas.

Mrs. Ewen said the committee was making plans to rehabilitate the members of the command in Canada, campaigning for \$50,000. She said General Franco, leader of the insurgent forces, had declared unwillingly that Canadians had proven the most stubborn fighters in the entire war in Spain.

## Blind Explorer

Mrs. Johnson, Widely Travelled, Had Many Accomplishments

Although blind from her 15th year, Mrs. Alice Adkins Johnson, who died in New York recently, was a well-known explorer and during her life learned to speak French, German, Italian and Spanish through conversation.

Mrs. Johnson accompanied her husband in hazardous scientific expeditions in Europe, Asia, Africa and Australia. With her blindness she gathered vivid impressions of her travels and in 1935 published a book of verse entitled "Fog, Phantoms and Other Poems."

## Voice Is Recorded

Queen's University Has Record Of President Roosevelt's Speech

President Roosevelt's voice has been added to the historic treasures of Queen's University, Kingston, Ont.

The "voice," a set of records, is that of the President accepting an honorary degree from the university and assuring Canada the United States would not stand idly by if the Dominion faced invasion by a foreign nation.

Four records record the entire convocation ceremony at the university prior to inauguration of the Thousand Islands Bridge at Ivy Lea, Ont. in August.

Record numbers of oranges and bananas are being eaten by people in Great Britain, but the consumption of apples is the lowest in years.

Church pews first came into use in the 15th century. Prior to that time, worshippers sat on the bare floors of churches.

When you've earned your way past you can't sleep mornings anyhow. In the alarm clock stage, you are so old

## Detectives in Medical Work

Have Discovered Some Dyes Will Cause Skin Diseases

Skin diseases that no one ever heard of are breaking out through industry. Why they appear and the medical detective work that catches them were described at New York to the American College of Surgeons in a report on occupational skin diseases by Louis Schwartz, of the United States Public Health Service. They do not always remain confined to workers. Take the story of butyl yellow, a dye. It had never been known as a skin irritant, Dr. Schwartz said.

"In fact, it was thought so innocuous that it had been used to color oleomargarine," he said.

The health service skin disease detectives discovered its new role when they were called in by a manufacturer of wrist watches. Complaints, and law suits, were charging that his wrist watch straps were causing skin troubles.

There was a new feature about these straps. They were jet black and sweat-proof. The health detectives sent them to both a leather research institute and to a skin specialist to see whether they contained a skin irritant.

Both reported back there was no irritant.

Next, the medical detectives went to the makers of the leather and to the tanners. They injected wrists with samples of the leather both dyed and undyed. Only the dyed leather showed bad effects.

There were several dyes. Skin tests of these showed that butyl yellow was irritating when it got on the skin. The yellow had been used along with a black dye to produce the jet black shade. The black dye alone gave only blue black.

When butter yellow was eliminated in favor of a different yellow dye, there was no more strap trouble, and more chemical was tagged with a warning in medical-industrial archives.

Often the trail is more difficult because all the chemicals used are harmless to the skin.

## Offer Scholarships

Educational Program For Canadian Pacific Railway Apprentices

Two scholarships providing for free tuition at McGill University were offered by the Canadian Pacific Railway subject to competitive examination, to apprentices and other male employees under 21 who are enrolled on the permanent staff of the company and to minor sons of employees.

D. C. Coleman, vice-president, Canadian Pacific Railway, announced the scholarships, which are part of a broad educational program sponsored by the company, and explained that they cover: Faculty of engineering, chemical, civil, mechanical or electrical engineering, four years' tuition on senior matriculation, or five years (including one year in the faculty of arts and science) junior matriculation; architecture, five years' tuition in the school of architecture. Faculty of arts and science: Four years' tuition in the arts division, or the school of commerce.

Candidates will be required to write the special entrance scholarship examination in March and April 1939, each writing an English essay and three other papers. Results of the examination and the school record of the candidates will determine the winners.

Full information can be obtained from F. J. Curtis, superintendent of pensions and staff registrar, Windsor Station, Montreal, and from the registrar of McGill University, Montreal.

## Heals Burns Without Scar

Chemical Successfully Used In Dealing From Injured Yeast Cells

A chemical product of injured yeast cells has been successfully used at charity hospitals to cure burns quickly without the growth of scar tissue.

The remedy is a by-product of a new method of tissue growth discovered at the Institution Divi, Clinchim, O.

Physicians treat common yeast and add a salt solution. The mixture is exposed to lethal ultra-violet rays and the healing chemical filtered off.

Not only are burns healed quickly by the yeast remedy, physicians said, but the growth of skin is considerably hastened.

The average temperature of barns and buildings is 1,700 degrees Fahrenheit, because brass melts at that heat, and it is generally found not melted or just on the verge.

For all their investments in streamlining, the railroads are getting nowhere fast.

## NEW JUMPER-FROCK WITH BOLERO

By Anne Adams

A "magic" new spray which grows larger flowers was announced to the United States Academy of Sciences. The bigger flowers are only one of the spectacular results of spraying this mixture on plants. It also makes possible new hybrids—that is, crosses in breeding plants—realizing a long-sought goal of agricultural scientists.

The spray is an emulsion of oil, mixed with colchicine, which has been a standard medical remedy for gout for nearly 2,000 years. Colchicine is extracted from meadow saffron.

A year ago Dr. Albert F. Blakeslee of the Carnegie Institution of Washington's station for experimental evolution at Cold Spring Harbor, New York, announced to the academy discovery that colchicine would cause strange changes in plants. It doubled their chromosomes, and the substances that govern heredity.

Since then the oil spray has been developed as a means of applying the colchicine and Dr. Blakeslee, with E. W. Slosson and H. E. Warneke, reported the first practical results, obtained on more than 40 species of plants.

The oil holds the colchicine on the plant tissues until it can penetrate. Buds or young stems are sprayed. On the growing parts the leaves become a deeper green. Fruits become shorter and stouter.

The flowers grow larger. In some species this bigness of blossom is so great—sometimes 25 per cent—that the spraying has immediate commercial value for floriculturists. The seeds from these larger flowers are larger and fewer.

The big flowers and "stoutened" parts grow on the same plant alongside normally small flowers and slender parts. The seeds from the colchicine-sprayed part of the plant grow permanently larger flowers, and a plant that is permanently different from its parent.

Facing Of Realities All Round

Thousands Of Women Take Out Permits For Fishing

Adding to the mounting list of mammish things that women are doing.

"It's amazing" said Charles Jackson, adding director of the United States Bureau of Fisheries, as he angled for salmon in a newly completed port. Many States complained, allow madly and their children all take up and cultivate. Logically, then, they should wish to see Western agriculture sufficiently prosperous to make it attractive to new settlers. The way not to do that is to make Western producers packhorses for other interests of one kind or another. Even more important than bringing in new settlers is the need for preventing too many of the farmers' sons from leaving the land, by giving them something to live for and showing them that they have some prospect.

If the Western people are to be told that they must fend for themselves, it is quite clear that some of our Eastern friends will have to change their ways and stop trying to recruit tributes which are conditions new settlers. The way not to do that is to make Western producers packhorses for other interests of one kind or another. Even more important than bringing in new settlers is the need for preventing too many of the farmers' sons from leaving the land, by giving them something to live for and showing them that they have some prospect.

## SUNDAY SCHOOL LESSON

NOVEMBER 13

THE SACREDNESS OF HUMAN LIFE

Golden text: Thou shalt not kill. Whoever hateth his brother is a murderer. John 8:18.

Lesson: Exodus 20:13; Matthew 5:21-26, 38-42.

Devotional reading: Isaiah 11:6-9.

Explanations And Comments

The Sixth Commandment: The Law of Life, Exodus 20:13.

The Hebrew word translatable "kill" is the verb "murder."

The verb "kill" is used in the sense of killing one's own kind.

Christ's Embracement of the Commandment, Matthew 5:21-26.

Christ, the law, said that man has

the right to kill his wife.

He said, "Thou shalt not kill."

## POOR MAN'S GOLD

Courtney Ryley Cooper

Courtney Ryley Cooper,  
WNU Service.

CHAPTER VI—Continued

Hammond swiftly crossed the lowland toward Loon creek. The workers along the stream passed in a blur. Far ahead he sighted two men walking along the opposite bank. Hammond began to run. Then, disregarding the rough bridge ahead, he leaped over the rushing water. Waist deep, he swam through it and clambered out the other side. Then, dripping, he pushed forward.

Lew Snade turned his weak face at the sound of his approach. Then suddenly gray-featured, he begged: "Let me alone—let me alone!"

Hammond had growled, his big arms had outstretched; now he was on the man, bending him in his grasp. "Give me that money!" he commanded.

"Look here!" Kenneth exclaimed, as he turned back. "What's all this about?"

Hammond gave no heed.

"Hear me!" he shouted at Lew Snade. "Give me that money!"

"You're all wrong. I haven't got any money!" The weak-featured Snade had caught the distended wrists of the miner and was hanging them desperately. Hammond bulged his heavy shoulders; Snade rose in his grasp, legs dangling querly, like those of a dummy.

"Shall I choke it out of you?" he asked. Quickly he threw the man from him, then rushed him for a new grip, his muscular fingers wide-spread. Snade struck out at him, wildly. Hammond gave out no evidence that he felt the blow. Now his hands, distended with muscle, plowed deep into Snade's throat.

"Look out! Jack!" Kenneth shouted.

"Knock him down!"

"What of it?" growled the prospector. Then to Snade, "Give me that money!" Lew Snade writhed helplessly, gasping. "You know what I mean; that money you stole from Jeannie Towers." Lew Snade hesitated only a second longer. Then he raised his weak hands and pointed to his throat. Slowly, Hammond relaxed his grip. The man staggered about, with sagging knees. "Well, get it! Don't stand there stalled. Get out that money!"

Snade, still reeling, pawed for his pockets. Currency, the nuggets, the phial of gold dust; slowly he passed them over into the waiting hands of Jack Hammond. The prospector turned to Bruce Kenneth.

"What's this rat to you?"

"Why—nothing. We were just talking about a job."

"Be sure it's never anything more than that." Black with rage, he turned to the gasping Snade. "Now you—get over there on the Alaskan side. And stay there. Do you understand?"

Slowly the man began to move away, in the direction of the uncompleted buildings of Around the World Annie's dance hall.

A half hour later, his clothing still soggy from the crossing of the creek, he walked slowly down toward Kay's claim. Something of calmness had come now, calmness and amazement. For the first time in his life, he had wanted to kill a man. He did not know why. All he could realize was that a blind, murderous rage had held him, until at last Jeannie Towers

## CHILDREN'S COUGHS (due to colds)

Don't let colds or coughs trouble your children. Ryley Cooper's Musterole Strength Muscle Oil, No. 2, eases the throat and chest at once. This milder form of regular Musterole penetrates, relaxes and stimulates local circulation. It made the bronchial tubes with its soothing, reviving vapors. Musterole brings relief because it's a "cougher-irritant." Not just a salve. Ryley Cooper is made by doctors and nurses. Made in Canada, in three strengths: Regular Strength, Children's (mild), and Extra Strength. All druggists—40¢ each.

CHILDREN'S

money was safe in his hands and he was hurrying back to her cabin with it.

### CHAPTER VII

Around the World Annie strode what passed as the streets of Sappho Lake upon an important mission. Summer had come now, with its hot days, and almost incessant rain; Annie was dressed for it. Timmy Moon had brought her quite a wardrobe on his last trip and Annie was displaying a sample. A long period of expenditure was over; now she could sanguine to this little northern world that she was about to reap the profits.

Now and then Around the World Annie paused in surprise, for she was here on business. Proceeding her, as she went through town, were two men with hammers, an arm full of placards, printed in Vancouver, and a mouthful of tacks. Gradually they were turning the drabness of cabin exteriors to screaming blasts of white and scarlet.

"Wrote that all my myself," explained Around the World Annie, to a quickly thickening ring of admirers. "Ain't bad for an old gal, eh?"

Among the many who paused to read was a stocky, beaverlike man whose eyes recently had borne the shadows of deep worry. Joe had not gone with McKenzie Joe in these last few months. He had been forced to watch the tremendous change engulf the young man whom he long ago had come to regard with an overpowering affection.

But McKenzie Joe never had been diplomatic. He was doing more in that direction now than ever before. At least, he kept his mouth tight when every atom of his supremely honest nature shamed to him to have a show-down and proclaim that he was tired of being dealt cards from a stacked deck. Something was wrong; he felt sure of it. His distrust of Kay Joyce and Bruce Kenneth amounted almost to mania.

Not that Joe blamed Jack for being blind. It was a wholly natural affliction. North Country men—men—blond or woman-blind and either affliction is hard to cure. Jack Hammond was not the first person McKenzie Joe had seen take to climbing trees at the will of a woman. He could remember a few experiences of his own. All prospectors can.

The placards announcing Annie's great premiere were still fresh in his mind as he turned into Jeannie's store.

"Listen," he announced, "I need some new duds. Can you get 'em by plane?"

"If you'll give me your measurements," Jeannie replied, "I've got an order going in on a plane tomorrow."

"That's easy. Forty-four chest for the coat, thirty-six waist and thirty-one legs for the pants. If the sleeves are too long, I'll turn 'em up." Then, without a break, "How's busi-

ness?"

"Pushing," answered Jeannie, writing down the measurements.

"Fine," McKenzie Joe looked sourly into the distance, only to turn back as quickly. "Say," he asked, peering hard into her face, "You and me always have been good friends. I think a lot of you."

"Thanks, Joe."

"If Jack Hammond had any sense—"

"You have any particular color you like for this suit?" Jeannie broke in.

"Well, I guess not. I'm kind of partial to blue. Not that dead blue, you know. Something kind of lively," she laughed. "You can see electric blue a long ways."

"That's my color. I want 'em to know I'm coming. And get me a couple of shirts. White, I guess. And a tie with some red in it—not all red. I'm going over to Around the World Annie's on the Fourth of July."

"Wearing red, white and blue," chuckled Jeannie.

"Might as well be neighborly," he

MANY PEOPLE can safely drink tea and coffee. Many others—and all children—should never drink them. If you are one of these, try Postum's 30-day test. Buy Postum and drink it instead of tea and coffee for one

month. Then, if you do not feel better, return the Postum container top to General Foods, Ltd., Cobourg, Ontario, and we'll refund full purchase price, plus postage. Postum is delicious, economical, easy to prepare, and contains no caffeine.

### Fast War Planes

United States Planning to Meet Air Rivalry in Europe

A six-mile-a-minute war plane is the United States army's answer to European rivalry for speed supremacy in the air.

A 380-mile flight in 61 minutes from Dayton, Ohio, to Buffalo, N.Y., by Lieut. Benjamin S. Kelsey lifted the wraps from a pursuit ship about which the air corps previously had little to say.

The plane, the Curtiss F-37, already had passed the experimental stage. An initial squadron of 13 would last December soon will be delivered, officials said.

Within a few days another will be delivered, officials said. On Dec. 27, the plane is to announce in a few days another and presumably even faster plane. Designated the P-40, it is an experimental job, and most details will not be disclosed for the present.

Both Germany and Great Britain have combat planes that have even greater speed than that attained by the P-37. But the air corps has a ready answer.

Lieutenant Kelsey's flight and earlier trials, which were kept secret, were made with full military equipment. Germany claimed some 350 miles an hour for its Messerschmitt. Although Britain's Spitfire exceeded 400 miles an hour, it was aided by a tailwind.

### Gettysburg Survivor

Colonel John Wesley Miller Dies At Peterborough, Ont.

Colonel John Wesley Miller, one of the few Canadian survivors of the historic battle of Gettysburg, and a veteran of the Fenian Raids, died recently at Peterborough, Ont. He marked his 93rd birthday October 14.

One of 30,000 Canadians who fought with the American Federal army at Gettysburg, he attended last July the 75th anniversary celebration of the battle. Only 590 Canadians and Americans attended, virtually all that remained of the thousands of soldiers who fought. He began his military career early, enlisting at the age of 15 in the 6th regiment of the U.S. Cavalry in 1861.

He was the only survivor of 220 stout-hearted young soldiers who marched 67 years ago with the Peterborough Rifle company to fight the Fenian raiders at Ridgeway. Private Miller had won his commission in the regiment later known as the 57th. Promotions followed gradually and in 1893 he became the fifth colonel of the regiment, he continued as officer commanding until 1914 when most of his men went overseas.

At the same time, an educational and cultural program to paint a Japanese completion on the face of conquered territories has been launched.

A new joint Chinese-Japanese motion picture company, expected to have a monopoly of important films, is being formed under sponsorship of the Japanese, Manchukuo, North China, provincial and central China reform governments.

Foreign business men in Peiping and Tientsin report that once-profitable trade with Inner Mongolia now is impossible for their firms.

### Just A Keepsake

Underaged Man Taken For Boy Gift A Balloon

A friend of ours, says The New Yorker, who is well known in every respect but his height (five feet six inches), went shopping as circumstances forced him to, in the other's department of a large store the other day and was on his way out when a salesman caught him by the sleeve. "You forgot your balloon," he said, with a big, brotherly smile. "Goes with every purchase, you know." Before our friend realized what was happening, he was out on the street with a package in one hand and a large red balloon, with a cat's face painted on it, in the other. It had ears, too.

There are more than 2,800,000 telephones on farms in the United States. About 44 per cent of the total number of farms in the country have them.

Such a keen sense of smell do East Indian natives have that they are able to distinguish between the footprints of a European and a person of their own race.

### Demand For Good Music

Is Being Met To-day By Radio And Talking Pictures

Talking pictures and the radio have already developed a musical appreciation on the part of the public which could not have been effected in 20 years of formal education. This musical appreciation has brought about not only the acceptance of, but the demand for, the finest in the

The sound engineers who have developed recording and reproduction to its present state have made it possible to give such music to the public, for to-day the finest symphony orchestra or the greatest voice can be brought to every fidelity to the theatre audience.

With this perfect sound reproduction and an active music appreciation on the part of the public, the composer in talking pictures has the opportunity to present his work under the best possible hearing conditions, to audience whose response assures him a return which should make the first a success.

But it is in the creation of the great dramatic musical scores, in the handling of operatic material, and the placing of work of great composers before the public in musicals, that the screen is doing its really important work in the field of music.

### Behind The Times

He had lived all his life in a small village. This was his first visit to London. Walking into a City post office, he said: "Half a pound of ham, please."

"We don't sell ham here," replied an amazed official.

"Ye dinna," exclaimed the villager in surprise. "Ye're awfu' behind the times here. In the post office where I come from they sell ham, apples, scones, eggs, and a hundred other things."

The Chinese, six centuries ago, used a passenger vehicle which dropped a pebble into a receptacle to measure off every mile travelled.

Smokers of Portugal are changing from 'cigarettes to pipes.

## NO FUSS

### RELIEVING COLD DISCOMFORT THIS WAY!

Just Follow Simple Directions Below—and Use Fast-Acting "Aspirin" Tablets

1. To ease pain and reduce fever take 2 "Aspirin" Tablets—drink a glass of water. Repeat in 2 hours.

2. If throat is raw from cold, crush and dissolve 3 "Aspirin" Tablets in ½ glass of water.

It's the Way Thousands Know to Ease Pain and Discomfort of Colds and Sore Throat Accompanying Colds—Easy to Do

The simple way pictured above often brings amazingly fast relief from discomfort and sore throat accompanying colds.

Try it. Then—see your doctor. He probably will tell you to continue with "Aspirin" because it acts fast to relieve discomforts of a cold.

This simple way, backed by scientific authority, has largely eliminated the use of stimulants in curing cold symptoms. Perhaps the easiest, most effective way discovered.

## LOCAL AND GENERAL ITEMS

About 3800 deer were killed this season in Nova Scotia, as against 2,185 last year.

Annual I.O.D.E. Armistice dance in the Columbus hall tonight, with Arcadians' orchestra.

Miss Alice Cardinal, of Macleod, formerly of Blairmore, is a patient in the Holy Cross hospital in Calgary.

The little building that was upturned Hallowe'en night is back on its feet and is now available as a credit house.

The adjourned meeting of the Blairmore Fish and Game Protective Association will be held in the Enterprise office on Sunday morning at 11 o'clock.

Joe Krosky returned the early part of the week from the Estevan district in Saskatchewan, where he had been organizing for the U. M. W. of A.

Mr. and Mrs. Frank Nemrava and family were down from Canal Flats on Wednesday to attend the funeral of Leonard Kneip.

John W. Fry has been re-elected mayor of Edmonton. That man Speed was away in the rear with 208 votes as against Fry's 10,461.

The Social Credit "ham and eggs" scrip plan was defeated by California voters. We should have sent our dictator down there to assist them.

A very appropriate and attractive window at the F. M. Thompson Co's depicts Flanders Field and the Canadian Monument. It is very neatly arranged.

Really the biggest and most jolly event of the season will be the Annual Armistice Ball being staged at the Columbus hall tonight, Friday, November 11th. Don't miss it!

Citizens woke up yesterday morning to witness the heaviest snowfall for weeks.

Showers continued all day and there is yet very little sign of clearing up.

A Remembrance Day service will be held in Central United church, Blairmore, on Sunday at 7:30 p.m., to which all are invited. A special invitation is extended to veterans of the Great War.

Anniversary service will be held at the local United church on Sunday, November 20th, at 7:30 p.m., with Rev. S. T. Galbraith, B.D., of Kimberley, B.C., as guest speaker. Special music will be rendered.

A Scotchman and an Englishman were having dinner together, when the Sassenach enquired: "What's the difference between a Scotchman and a fool?"

The Scotchman answered: "Just the bairn o' the table."

The remains of William Hampson, who died suddenly at Calgary on Thursday last, were laid to rest at Calgary on Monday afternoon. Mr. Hampson is survived by his wife, Mildred, and five small children. He was fifty-one years of age.

In this week's civic elections at Edmonton, Mayor Fry was opposed by a man named Speed. In his campaign speech, Speed is said to have quoted Shakespeare considerably, but threatened to wind up with Hamlet's oration. Even at that, Edmontonians claimed it a welcome relief from Abie and his biblical blunderings.

Alberta College at Edmonton recently celebrated its thirty-fifth anniversary, when Rev. Dr. J. H. Riddell, its first principal, was present for the occasion. On Sunday morning, October 17th, Dr. Riddell preached to the students and staff in McDougall church. Among distinguished guests at a noon banquet were Premier Aberhart, Mayor Fry, Rev. A. J. Law and others. Dr. F. Stacey McCall is present principal of the college. Both Dr. McCall and Rev. Law held former Methodist church parishes in the Crows' Nest Pass, the former at Frank, and the latter at Blairmore and Frank.

### BELLEVUE HAPPENINGS

William (Granddad) Goodwin is visiting at the home of his daughter, Mrs. Fred Hill.

Mr. and Mrs. B. Fisher, of Kimberley, were guests at the former's home here on Sunday.

Mr. and Mrs. William McDonald, of Passavant, are rejoicing upon the arrival of a daughter.

Mr. and Mrs. J. Radford, senior, and J. Radford, junior, of Mrs. H. Kaye, returned from Winnipeg Saturday, where they had attended the funeral of Thomas Bradley, who was killed in a recent auto accident.

Miss Esther Chiaravano, bride-elect of Mr. and Mrs. John Devereux, spent at bingo, after which a very dainty luncheon was served. Following luncheon, the guest of honor was presented with a well-filled basket of unusual and pretty gifts, for which Miss Chiaravano thanked her many friends.

Mr. and Mrs. John Devereux, of the Devereux home, were at bingo, after which a very dainty luncheon was served. Following luncheon, the guest of honor was presented with a well-filled basket of unusual and pretty gifts, for which Miss Chiaravano thanked her many friends.

Keep faith with those, the sacred host.

Who left their shattered forms to rest?

Neath a sombre, foreign skies and lost?

All you have gained that they possessed?

They gave you all that they could give,

And by their sacrificial death you

"And they shall live forevermore."

### THE PRICE OF PEACE

Prospering in your sheltered ease,  
Bought by bitter agonies of war;  
Ye, who see this year of peace,  
Cross the threshold of your door.

Ask yourselves the reason why  
Countless warriors had to die?

Ask yourselves the cost in gold,  
In blood, in bitterness and woe;

On those old days of yore the tale is told

In song, in hand and friend.

Then, pay the need to heroes given

Whose flame of glory shines to heaven.

Keep faith with those, the sacred host.

Who left their shattered forms to rest?

Neath a sombre, foreign skies and lost?

All you have gained that they possessed?

They gave you all that they could give,

And by their sacrificial death you

"And they shall live forevermore."

- T. B. Windross.

### HILLCREST HAPPENINGS

J. Graham, of Coaldale, was a Hillcrest visitor this week.

The first of a series of whist drives was held by the Knights of Pythias in their hall on Friday night. Prizes were won as follows: ladies' first, Mrs. P. Haggerty; second, Mrs. W. Fisher, gents' first, Mrs. W. Kovach, second, P. Haggerty.

Mrs. W. Rose returned last week from a several months' visit with relatives in England.

Mrs. W. Adam was a visitor to Calgary this week.

A very delightful miscellaneous shower was held in the Catholic hall Thursday in honor of Miss Gwyn Hamuluk, who is to be married shortly in Cranbrook. She was the recipient of many beautiful gifts, for which she thanked those present fittingly. Whist was played, prizes going to Mrs. M. Jankuluk, Mrs. F. Gregory and Mrs. P. Mathus.

The funeral of Mrs. O. Lofstrand

was held Thursday afternoon from the United church, with Rev. John Wood officiating. Interment took place in the Hillcrest cemetery.

Mr. and Mrs. T. Morgan returned home last week from England, where they had spent the summer months.

A daughter was born last week to Mr. and Mrs. D. A. McKay (nee Elsie Bamforth), of Kimberley.

A very enjoyable whist drive was held Tuesday night at the home of Mrs. W. Fisher, when she entertained a number of friends. Prizes were won by Mrs. A. Petrie, first, Mrs. H. A. McVicar, second; Mrs. E. Fisher, third.

A number of Hillcrest teachers are attending the convention at Calgary and Lethbridge.

## State Medicine's Appeal

State medicine, whether it be in the form of compulsory health insurance, compulsory co-operative medicine or a full fledged state medicine plan, in which the State would have control of the entire field and doctors, nurses and attendants would be salaried civil servants is much in the public eye in Western Canada as well as other countries of the world.

In recent years in Western Canada many organizations have gone on record in support of some form of State medicine on a province-wide basis. Other organizations have appointed committees to make a study of State medicine and all its implications and costs and in some of the provinces legislation has been placed on the statute books providing for the inauguration of a scheme of State medicine at a later date.

It is not at all surprising that the plea for State medicine, in one or other of the forms in which it has or is taking shape should appeal to the popular mind who are reasoning that behind it is the general principle that when one or other of the medical services has been put into the public domain it will make available to all who are sick or suffering, the alleviation and remedies which medical science has to offer; that the best of medical and surgical skill will be available to all, regardless of their financial status and further, that it will, by the very nature of its scope, extend the field of preventive medicine.

The consummation of these objectives is indeed highly desirable at the earliest possible opportunity. The humanitarians behind such plans constitutes a powerful appeal to the imagination and this is one of the factors which sway large conventions and groups to make an insistent demand for social reform of this character.

## Cost Is A Consideration

Just because a project is highly desirable does not necessarily mean that it is economically feasible and this point is sometimes overlooked in the eagerness of the wish to put it into immediate operation. That there is a strong tide flowing in the direction of some form of compulsory health insurance in many countries of the world, and particularly in the democratic countries, cannot be denied, and it would appear that by evolutionary process it will be brought about in due course in many countries, states and provinces. Let us however so far only taste its benefits on a small scale and in a voluntary way.

Before, however, such beneficial programs are adopted and put into effect, the cost must be counted if there are to be no subsequent regrets. There must not only be a realization of what the cost will be, but also of the source of the necessary funds; in other words who is going to pay and how.

In this connection it is not amiss to point out that the cost of a province-wide scheme, no matter in what form it may be levied, can only come out of the pockets of the people of that province, at any rate until such time as it may be adopted as a national scheme. If a substantial number of the residents of a province have no resources, temporarily or permanently, the entire economic burden must in the meantime fall on the remainder of the citizens of that province. Coupling this fact with the financial condition of a large percentage of the residents of the three prairie provinces during the past few years, the reason why those provinces which have such legislation on their books have not yet put it into effect is not far to seek.

## Ability To Pay A Factor

In Saskatchewan where there is, as yet, no state medicine legislation enacted, a compulsory "co-operative medicine" project designed to provide "free" medical, nursing, hospital and medicinal supplies to the entire population is finding favour. The cost per capita is estimated by its supporters to be \$10.62, including a provincial government contribution, or an annual average levy of \$4.68 on the average family. How many families in Saskatchewan could this year meet an additional levy of \$4.68 on top of other tax levies, or could have done so last year when approximately half the population was on relief? It is a safe venture to assume that neither in 1937 nor in 1938 could such a project have been financed out of current levies.

In Greenbelt, Maryland, where a co-operative community is being operated under the New Deal, an annual levy ranging from \$78 for an unmarried man to \$117 for a family of six is being collected from the residents to pay their contributions to the Greenbelt Health association which guarantees for its members medical care, preventive and remedial, presumably at cost.

In New Zealand where a full fledged national health service comprising free medical service, with free hospital and sanatorium treatment for everybody, free mental treatment in institutions, free medicine and free maternity care, including the cost of maintenance in special maternity homes, the probable annual cost is estimated by G. H. Maddex, a British government actuary, at \$15,000,000 without taking into account substantial additional expenditures of hospital boards for which funds are secured by municipal levies, and it is announced that in making his report Mr. Maddex added the warning that "once hospital accommodation was given free of charge there might well be a greatly increased demand for it, which would increase the cost."

## Probably Learned

Thomas Craven, art critic and author, in search of color for a book concerning Southern life, went to the field to learn about picking cotton by working at it for a day. As dusk settled he dragged a long sack to the weighing stand. It contained 20 pounds of cotton. He was paid 12 cents for his day's work.

Pioneer youth spent much of its time cutting down. Modern youth spends much of its time cutting up. The pioneers razed the trees; the moderns raise the dicens.

## PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. APPLEYARD COMPANY Registered Patent Attorneys, 273 Bay Street, Ottawa, Canada.

## Unnecessary Work

For more than a century occupiers of a house at Cressedly, six miles from Penhale, have tramped a mile to fetch drinking water. In times of drought even the well failed, and then water had to be brought from Redberth, three miles away. A water divisor has just discovered a spring — at the farmhouse back-door.

Ancient Aztecs used fire beetles as lanterns to light their paths. Bundles of the insects were tied to the wrists of the night traveller.

The 100-inch silvered mirror at Mt. Wilson Observatory in California is polished with rouge.

The witch-hazel bears both its flowers and fruit in autumn.

## Will Take Two Years

## For Canada To Get Air Defence Program Under Way

New ships are taking to the air every month as Canada's air defence program takes shape. Hon. Ian MacKenzie said at Ottawa, "Soon we will have the first of our Blackburns fighters being manufactured in Vancouver, and about two years will be required to get an air program really under way, said Mr. MacKenzie.

Because matters of defence are listed among those things which are state secrets, and because of rigid governmental rules concerning announcement of policy, the Minister of National Defence would give no forecast of what this year's armament budget would be, nor would he draw any conclusions, for Canada, concerning the effect of recent European developments.

But the recent crisis is likely to have a profound effect upon the status of the armed forces of Canada, according to a hint he dropped, and according to reports which have circulated in Ottawa since the Munich truce was signed.

"That situation has brought the realization to every one that the democracies seem to be going behind the United States in their relationship in the matter of armaments," he said.

And he added that he believed Canada's air force should be expanded, within our financial limits, and that there would be no relaxation of efforts to build an adequate defence for the Dominion.

## Empire Press Meeting

## Conference To Be Held In Ottawa In 1940

The council of the Empire Press Union accepted the invitation of J. H. Woods, chairman of Canadian section, to hold the sixth Imperial Press conference in 1940 in Canada. The conference proper, lasting three days, will be held at Ottawa and it is planned delegates will tour the Dominion from coast to coast.

At the council meeting it was agreed Canadian section would be asked to arrange the conference for August or September on the grounds that this would be more convenient than the early summer.

The sixth Imperial Press conference was held in London, the second, held in Canada in 1930, lasted seven weeks, including the cross-country tour. The third conference was in Australia, the fourth in London and the fifth in Cape Town, South Africa.

## Gift To Premier King

## Explanation Settles Any Doubt About Owner Of Laurier House

Prime Minister King owns Laurier House in Ottawa. Many people think that Laurier House belongs to the Liberal party and is to be the official residence in Ottawa of the leader of the Liberals.

The best explanation of the status of Laurier House comes from none other than Mr. King himself, who says: "Laurier House was given originally to Lady Laurier. It belonged to her, not to Sir Wilfrid. It was left to me by Lady Laurier in her will. I paid the administration duties at the time. I became the owner of the house, which I named Laurier House, and the other, have paid taxes ever since."

That should make it clear to anyone who may have wondered just who owns Laurier House it Ottawa. — Windsor Daily Star.

## Many Ingredients

A 200-pound human body contains one-fourth ounce iron, one-fifth ounce sugar, one and eight-tenths ounces salt, 24 pounds coal (in the form of carbon), 10 gallons water, one-tenth drop iodine, one and eight-tenths pounds phosphorus, 112 cubic feet oxygen, 62 cubic feet nitrogen, 561 feet hydrogen, and seven pounds lime.

Flags used at the battle of Waterloo were carried by the Cameron Highlanders in a recent ceremonial parade in Inverness, Scotland.

## TAKE THE LEAD OUT OF YOUR LEGS

## Get Oxygen In Your Blood and You'll Get the Pep that Sends You Boundin' Up the Stairs

People who smother to death die because they can't get oxygen to their brain. Just as easily you are smothered and your blood lacks red corpuscles, carrying oxygen to your brain.

They carry the oxygen you breathe in to every part of your body. They help you to live.

They carry the oxygen to your kidneys, liver, heart, lungs, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

They carry the oxygen to your heart, lungs, liver, kidneys, brain, and all the other organs.

## BRITAIN WILL PLAN ENLARGED CIVILIAN DEFENSE

London.—Lessons of the September crisis fresh in mind, the British government will embark on an enlarged civilian defence program with emphasis of splinterproof shelters and general evacuation from over-crowded cities in case of war.

The government made this plain to the House of Commons when beating back a Labor motion which charged the government with failure to protect the civilian population from air raid dangers.

The house defeated the motion by a vote of 355 to 130. Then the government's amendment stating the house welcomed the new program, which will be administered by Sir John Anderson, lord privy seal, was approved by a show of hands.

Leslie Hore-Belisha, secretary for war, frankly told the house of deficiencies in anti-aircraft defences, of guns without sights, without ammunition, and shortages of equipment, stores and transport.

The war secretary promised to correct this situation in the shortest possible time, declaring his determination to build up the national defences to the highest peak of efficiency.

His critics, he said, should remember Great Britain had been rearming for only three years, a period insufficient to produce a perfect war machine.

In addition, Mr. Hore-Belisha said, the territorial army had been built rapidly in personnel in the past three years, and the country's armament industry, which practically did not exist a few years ago after being scrapped following the Great War, could not keep pace with an eight-fold expansion of military manpower.

Mr. Hore-Belisha said full requirements of 3.7-inch anti-aircraft guns would be supplied by mid-September, and two thousand for use against low-flying planes would go into production by June.

First deliveries had been made of Britain's new 4.5-inch gun which had been described as the most powerful anti-aircraft gun in the world.

"Henceforth we must pay the same attention as a nation to our anti-aircraft defences as we have paid to the maintenance of the fleet," Mr. Hore-Belisha declared.

Mr. Hore-Belisha and Sir Samuel Hoare, home secretary, bore the brunt of the government's defence during the one-day debate against attacks by Hugh Dalton and Herbert Morrison of the Labor front bench.

Mr. Dalton criticized the war office for "lack of preparation" and for demands in "necessary" equipment despite the millions of pounds sterling voted for rearmament in recent years.

He claimed half the guns in position in London during the week of the German-Czechoslovak crisis could not have fired a shot at an enemy plane. Some lacked vital parts, he declared, others had defective parts while others had no ammunition or the wrong calibre ammunition.

Of the guns mobilized during the crisis, he affirmed, only one-fifth were modern 3.7's, and half of these would not fire. There were none of the 4.5s made and no two-pounders.

Sir Samuel Hoare, home secretary, who now turns air raids precautions measures over to Sir John Anderson, regarded as an energetic, driving administrator, declared:

"This country can make as good a system of passive defence as any in the world."

"We are determined to make it effective, and to see that it can play its full part, with a substantial increase of the air force and a greatly increased system of anti-aircraft guns, so as a result of this triple effort we can go far to regain the insular security of this country."

### German-Eire Trade Fact

Dublin.—Germany and Eire completed a commercial agreement. Details of the pact, which replaces a three-year-old agreement expiring Dec. 31, will be published shortly. Nazi officials sought the new agreement when their trade dropped severely after the signing of the Anglo-Eire agreement on trade and defence this year.

### Retail Sales Increase

Ottawa.—General index of retail sales, as compiled from composite figures for 12 lines of business, gained 16 per cent. in September over August but was three per cent. lower than in September, 1937. The Dominion bureau of statistics reported.

## Spanish Boat Sunk

Insurgent Ship Shells Victim Close To British Coast

Cromer, Norfolk, Eng.—The Spanish insurgent motor vessel Nadir shelled and sank the Spanish government freighter Cantabria in the North Sea, a few miles outside British territorial waters.

Survivors of the freighter, brought to Cromer near where the concealed fight took place, said the Cantabria dashed at the Nadir, surrendered, signalled from the Nadir.

The Nadir then shelled the Cantabria for about three hours. Finally the battered hulk caught fire. The crew and passengers were taken off.

A coastal lifeboat took off the captain, his wife and their two children, and the second steward. The captain, speaking through an interpreter, said there were 37 members of the crew and passengers, including three women and five children. The majority of the survivors were taken by the Nadir and 11 by the London-bound steamer, Pattersonson.

The captain said he knew of no casualties but said the Cantabria sank just after he left the ship. She was of 5,649 tons with her home port at Santander, north of the insurgent held. The vessel was owned by the Mid-Atlantic Shipping Company of London.

He described the Nadir's armament as five guns, which fired broadside after broadside into the Cantabria.

The Pattersonson, a 315-ton steamer from Newcastle, later landed 11 of the Cantabria's crewmen from life boats at Great Yarmouth. Police had ambulances and taxis ready but none of the crewmen was injured although all suffered from exhaustion.

Disposition of those taken aboard the Nadir from a lifeboat was not known, as she disappeared in the mists of the North Sea after the bombardment. She refused to answer wireless demands of nearly two hours for identification of the aggressor.

The freighter was overtaken and shelled just outside the three-mile limit and the thunder of guns was easily heard on shore. Scores of persons saw the flashes of the firing and smoke rolling from the merchantman.

The location just outside the territorial waters prevented the admiralty from sending a warship to the scene, though scores of fishing trawlers and other ships drew as near as they dared. The admiralty followed reports of the uneven encounter closely.

## Buy U.S. Planes

Australia Is Ordering Fifty Bombers For Early Delivery

Canberra.—Premier Joseph Lyons announced in the house of representatives that Australia immediately was ordering 50 bombers similar to 200 planes ordered by Great Britain from the United States.

Premier Lyons, faced with a Labor motion of censure during debate on defence policies, made the announcement the planes were ordered as necessary insurance against possible further delay in delivery of British planes ordered some time ago.

He also said the Australian government was doubling the volunteer militia to 70,000 and added further steps would be taken to strengthen the country's defence.

## Will Need British Capital

Develop China's Markets Even If Japan Wins War

London.—British capital will still be needed in China even if Japan wins the war and establishes complete domination over the east Asiatic mainland, Prime Minister Chamberlain told the House of Commons.

"China cannot be developed into a real market without the influx of a great deal of capital. The fact so much capital is being destroyed during the war means that even more will have to be introduced after the war is over," he said.

### Dr. Cannell Honored

Winnipeg.—Dr. Charles Cannell, federal deputy minister of mines and natural resources, was made an honorary fellow of St. John's Anglican College during ceremonies marking the 72nd anniversary of the institution's founding. He is a graduate of the college. The degree of doctor of divinity was conferred on Bishop Joseph Lofthouse of Keeewatin.

### Report Was Denied

London.—A Buckingham palace spokesman denied a report printed by the London Daily Herald that the King had sent a letter to President Roosevelt accepting an invitation to visit Washington after their visit to Canada next year.

## CZECH MAP AGAIN CHANGED BY THE HUNGARY AWARD

Vienna.—German and Italian mediators remapped the boundaries of Czechoslovakia, awarding Hungary the major portion of land and population she claimed from the shrinking republic.

Though official figures were lacking, it was estimated Hungary gained 4,875 square miles and 860,000 inhabitants at the expense of Czechoslovakia which already has lost Sudetenland to Germany and the Teschen region to Poland.

In negotiations before Rome and Berlin were called in to mediate Czechoslovakia had agreed to cede 3,500 square miles without arbitration, but the rest of Hungary's original demands—estimated as high as 9,000 square miles at first—were put up to the totalitarian powers for final decision.

Foreign Ministers Count Ciano of Italy and Joachim von Ribbentrop of Germany, in a short meeting, gave Hungary a wide strip of the territory she demanded, including Ushord, capital of autonomous Ruthenia, and the only railway connecting Ruthenia with Slovakia.

In the disputed region only Bratislava, on the Danube near the junction of Czechoslovakia, Hungary and Germany, was left to the central Prague government along with the city of Nitra in southwestern Slovakia.

Both Czechoslovakia and Hungary agreed to accept the award as final and to start fulfilling it at once.

Hungary's occupation of the territory is to be completed Nov. 10. A Hungarian-Czechoslovak committee was provided to work out stages of occupation.

German sources estimated that of the 860,000 persons in ceded territory 720,000 were Hungarian and the rest Slovaks, Ruthenians and Jews.

The arbitrators chose an old census on the basis of the award. The latest 1930 census, according to Hungarian figures, showed Hungarians were in the minority in these cities which, in spite of the new census, now become Hungary's. Hungarians asserted the cities originally were Magyar but admitted they now were in the minority.

Von Ribbentrop and Ciano indicated they were pleased with their work. In a joint statement they looked forward to future power of the Ruthenian Republic in Hungarian politics, and said "injustices" of 1919 now had been rectified.

The statement said the axis had served as a "successful arbiter" and thereby had "furnished new proof that it is a factor of peace and order in European politics."

Slovakia was hard hit by loss of the railway to Ruthenia. A new one will have to be built over difficult mountain territory.

Ruthenian delegates reported thousands of Jews were in a panic at the start over decisions of the conference. The Jews were said to fear Hungarian rule because of anti-Semitic laws now enforced in Hungary.

Final Trial Flight

Frankfurt-on-Main, Germany.—Germany's latest dirigible, the LZ 130, with 80 persons aboard, landed without incident here after a final trial flight of about 24 hours before being taken over by the Zeppelin Company.

## OFF FOR POLICE DUTY IN PALESTINE

A party of British policemen in civilian garb, gathered at Millbank before leaving for police work in Palestine, where the incipient Arab revolt is causing a lot of worry to both police and military authorities.

## EARL STANHOPE

He has been appointed First Lord of the Admiralty in succession to Alfred Duff Cooper, who resigned because of "distrust" of Premier Chamberlain's foreign policy.

## Canada's Wheat Policy

Should Keep Growing Wheat Of The Highest Quality, Say United Grain Growers

Calgary.—Canada's wheat policy must be to keep growing wheat and of the highest quality possible, R. S. Law, president, told 300 delegates, representing 30,000 shareholders, at the opening of the annual meeting of the United Grain Growers Limited here.

"We must keep on selling wheat so as to secure a maximum possible share of the world's markets and to use intensive efforts to promote the sales of wheat," he declared.

Cost of production must be kept as low as possible, both by sound agricultural methods and sound national policies.

An operating profit of \$254,613 for the fiscal year ending July 31, 1938, was shown in the annual report presented by Mr. Law. After vital appropriations of \$246,226 the net profit for the year amounted to \$7,786, he reported.

Mr. Law said the company's debt was reduced during the past year by \$107,500 and now stands at \$2,886,600. Agriost capital amounts of \$10,923,330, reserves have been provided to the amount of \$4,472,575, making the net capital assets \$6,455,754. Equity of shareholders totals \$5,223,711 made up of paid up capital stock, \$3,189,371; general reserve, \$1,710,282 and capital and earned surplus \$322,717.

Payment of a dividend was not practical, he added, but shareholders in the company had received a return on their investment of more than \$4,000,000 or more than \$1,000,000 in excess of paid up capital.

The company operated 440 country terminals at Fort Arthur and Vancouver. It also conducts an extensive sale of farm supplies.

Mr. Law told the delegates that when the farmer's ability to carry on is threatened by low world prices, Dominion agriculture must be assisted in the national interest by extending relief to the farmer.

"It is the hope of the company," he said, "that the Canadian government will carry out its proposals for a Canadian wheat institute to work for enlargement of markets for Canadian wheat."

## Mail Flights Across Canada

Coast-to-Coast Service May Be Linked Up Next Month

Winnipeg.—Night mail and express service between Winnipeg, Toronto, Ottawa and Montreal, linking Canada for the first time from coast-to-coast on a fast, through service, may be started before Christmas, Philip G. Johnson, vice-president of the Trans-Canada Airlines, said here.

Replacement of the present daily express service on the eastern section with a fast night service awaits completion of landing lights at the Malton airport, Toronto, and intermediate fields where the work is now 90 per cent. completed, Johnson stated.

Passenger service will be started in the western section, Winnipeg to Vancouver, when the four new radio ranges, now being installed in the Rocky Mountains, are completed.

Meanwhile flight schedules are being completed as regularly as weather permits on the whole line from Vancouver to Montreal.

## ANGLO-ITALIAN AGREEMENT IS TO BECOME EFFECTIVE

London.—The House of Commons endorsed Prime Minister Chamberlain's intention of putting into effect the Anglo-Italian agreement and British recognition of the conquest of Ethiopia by Italy.

At the end of a day-long debate, the seal of approval was attached by a vote of 313 to 138 while off the east coast the Spanish civil war, much discussed during the debate, was being brought close to England as a Spanish insurgent naval craft shelled and sank a Spanish merchantman.

Labor and Liberals pitted their strength against the government forces in the house, with only a small group of Conservatives abstaining from voting.

The opposition based their case on the fact the agreement was another surrender to force and another bad bargain with the totalitarian states, the cumulative effect of which might become disastrous to Great Britain in the future.

They insisted in addition that Ethiopia had not been conquered—natives were still in control of vast areas—and to recognize Italian sovereignty was simply to approve the principle of unprovoked aggression.

During the debate, Richard Butler, foreign under-secretary, told the British government had no intention of giving up Italian colonies in Africa without recognition of Italian power.

Mr. Chamberlain has not mentioned the new order "as for its foundation of a tri-partite relationship of mutual aid and co-operation between Japan, Manchukuo and China in political, economic, cultural and other fields." Its object is to secure international justice."

This reference to "international justice" and a remark Japan was confident other powers will "correctly appreciate her aims and policy and will adapt their attitude to the new conditions" was interpreted by observers as meaning among other things, "responsible" or international treaties as they effect Japan.

This point of view was emphasized in the speech of Asahel Winslow, who commented: "Foreign powers will henceforth be unable to discuss East Asia without reaching an understanding with Japan. Whether they wish it or not, foreign powers will be compelled to give Japan's foreign policy a guiding position in East Asia."

## JAPAN INTENDS TO BE DOMINATING FACTOR IN ORIENT

Tokyo.—Japan's foreign office spokesman disclosed Japan considers obsolete the nine-power treaty which guarantees the territorial integrity of China, and intimated Japan may announce it.

The spokesman revealed Japan is considering replacement of the treaty signed at Washington in 1922, with a new three-power pact among Japan, her puppet-empire of Manchukuo and a new regime in China, envisioning displacement of the Chiang Kai-Shek government.

Such a new pact ostensibly would be to guarantee China's territorial integrity after cessation of the present Japanese-Chinese war.

"Japan considers the nine-power pact obsolete. Whether we will announce it or withdraw has not yet been decided," the spokesman said. "The government is examining the advantages of creation of a tri-power pact."

Earlier Premier Fumimaro Konoe's announcement of a "new order in east Asia" in which Japan is to have the dominating role, was believed to foreshadow a demand for revision of the treaty.

The spokesman hinted Japan might make a definite statement on this line when she replies to a United States note protesting against what Washington termed interference with American interests in China.

When a reply could be expected was not known.

The foreign office disclosure came soon after the state department in Washington made public a reminder that last year's nine-power conference in Brussels had served notice final settlement of the Chinese-Japanese war must be "satisfactory to the conference powers."

(The reminder was among others to unpublished documents concerning the conference which sought unsuccessfully to end war in the far east.

(Canada was represented at the Brussels conference.)

An official statement issued Nov. 2 outlined Japan's aims in the current war as creation of an economic and political bloc embracing Japan, Manchukuo and China for domination of East Asia.

In a broadcast, the premier asserted the new order "as for its foundation of a tri-partite relationship of mutual aid and co-operation between Japan, Manchukuo and China in political, economic, cultural and other fields." Its object is to secure international justice."

This reference to "international justice" and a remark Japan was confident other powers will "correctly appreciate her aims and policy and will adapt their attitude to the new conditions" was interpreted by observers as meaning among other things, "responsible" or international treaties as they effect Japan.

The prime minister also stressed assurances given him at Munich by Chancellor Hitler and Premier Mussolini that Germany and Italy had "no territorial ambitions in Spain."

The Anglo-Italian agreement, the prime minister emphasized, would improve prospects of peace as a whole.

"I say, let us put an end here and now to any idea it is desirable to keep any state at arm's length," he declared. "Let us remember that every advance we make toward removing a possible cause of friction upon one subject makes it easier and more probable we can deal satisfactorily with those which remain still unsettled."

"In my mind," Mr. Chamberlain said at another point, "it is perfectly clear the Spanish question is no longer a menace to the peace of Europe."

"Consequently, there is no valid reason why we should not take a step now which obviously would contribute to general appeasement."

## Defence Problems

### Arms Program For Canada Is Occupying Attention

Ottawa.—In the light of Canada's present military situation, military equipment, particularly large calibre guns and armored fighting vehicles, the national defence department continues to study "every possible angle" of a long range program for manufacture in this country of armaments, it was authoritatively learned.

It is anticipated that national defence problems will loom large at the next session of parliament, and the issue of private or public manufacture of arms will be fully debated. The parliamentary votes of the last two years, each in the neighbourhood of \$35,000,000 were largely applied to the acquisition of aeroplanes and the construction of coastal defences.

### Takes New Post

Ottawa.—Assistant Commissioner T. Dunn, of Royal Canadian Mounted Police headquarters here, has been appointed acting deputy commissioner, it was announced. He succeeds Deputy Commissioner Denis Ryan of Regina, who is retiring after 35 years service. Assistant Commissioner Dunn will remain Ottawa.

Rev. H. J. Bevan, pastor of St. Paul's United church at Coleman, had the misfortune last week end to severely gash his left hand while in the act of cleaving wood. Several stitches were necessary to close the wound.

Some more of the legislation with the Aberhart flavor has been signed to the w.p.b. Truly, Mr. Aberhart has proven to be a most wonderful man. Never in all history has anyone come so near accomplishing nothing.

## Here Is What You Have To Do This Week

HERE are three words out of five forming a sentence:

### MILK IS MILK.

WHAT are the other two words? PERHAPS you can guess them! IF NOT, you will find them on a Milk Bottle in a Store Window.

THE bottle will be placed in the Store Window between 1:00 and 1:30 on Saturday afternoon.

THEIR will be one in Coleman, one in Blairmore and one in Bellevue and one in Hillcrest.

Naturally it will be a Store or a Cafe or a Hotel that uses MEADOW SWEET DAIRIES PRODUCTS so that makes it a little easier for you.

CUT OUT the Milk Bottle from the newspaper and write your name. Then when you find the Store and the Milk Bottle with the other two words on it, write in the proper sentence and the name of the store. Then take the paper bottle into the Store and get your Milk.

THE FIRST Boy or Girl who hands in a properly filled paper bottle will receive \$1.00 from the Storekeeper; THE SECOND Boy or Girl will receive 25¢.

NAME  
SENTENCE  
STORE

...and YOU  
can make  
these tasty  
**FISH**  
dishes!

• The hardy Fishermen of Canada market over 60 different kinds of food Fish and Shellfish, either fresh, frozen, smoked, dried, canned or pickled... each affording a grand opportunity for thrifty dishes that have style, zest and delicious flavour.

So nourishing, too, for Canadian Fish and Shellfish give plenty of proteins, minerals and precious vitamins. In fact, they have everything folks enjoy and need in a lunch or supper dish.

You can make arrangements with your dealers to supply different kinds of delicious fish several times a week, and the family will enjoy this tempting treat.

## Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, entertainments, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

We pity the Privy Council—they've got to take the blame this time.

Getting rattled is often an indication that there is a screw loose somewhere.

We wonder where in the book of Revelations William Aberhart gets that "boycott" idea.

\$11,000 for Bibb Institute, crocodile tears for the poor down-trodden people. Sympathy, eh?

Claresholm realized \$1,200 towards a swimming pool fund by means of a carnival under auspices of the Men's Club.

Less than fifty of the 1,600 merchants of Calgary have agreed to cooperate with Aberhart's credit house scheme.

Wonder if license refunds will be made to the unfortunate who were prompt in paying them when demanded?

Sgt. Cawsey was a visitor to Calgary over the week end, attending the funeral of Mrs. J. N. Cawsey on Saturday.

Mrs. Baines (nee Jean McEwan), of Consul, Saskatchewan, has been visiting with friends in Blairmore and Coleman.

DEC. 3rd—This is THE DATE to remember. Annual sale, under the auspices of the Ladies' Aid of Blairmore United church. Particulars later.

Tony Selwynchyk, of the Guy district, near Peace River, was convicted of attempted murder and sentenced to serve fifteen years in the Prince Albert penitentiary.

A class in an Alberta rural school were asked to name the most unpopular thing in the world. One little boy's answer was "the skunk," but the second lad had it "the Aberhart government."

South Alberta teachers have been in annual convention at Lethbridge the past two days. The attendance is said to have been the largest on record, slightly over five hundred having registered.

Damage performed by certain grown-up kids (with no brains) cost a Fernie citizen some forty dollars to replace. In all likelihood, the perpetrators were worthless in the community, and it simply takes a Hallowe'en prank to the fact.

On Tuesday of last week Miss Kathleen Sanderson and Mrs. C. Thompson, of the Travelling Unit of the Registered Nurses' Association of British Columbia, visited Fernie. British Columbians is the first province in Canada to send out a travelling unit.

E. Roy Sayles, editor and publisher of the Mercury at Renfrew, Ontario, and former secretary-manager of the Canadian Weekly Newspapers Association, has been elected to the office of moderator of the Central Canada Baptist Association, in succession to the Rev. H. C. Bryant, of Smith's Falls.

In some centres of Alberta, boys turned up at school on the morning of Hallowe'en, more asleep than awake, explaining that they had had a "swell" time doing nothing more serious than causing themselves to be chased all over town and back again by the extra police put on to keep order on Hallowe'en.

This year two thousand buffalo will be slaughtered in the annual weeding out of the world's largest herd, at Wainwright National Park, it was announced recently. Skilled riflemen will shoot the 2,000 selected from the herd, estimated at 6,000, to bring to 12,000, the total slaughtered in the park since it was found an annual decrease was necessary.

The first date that Eve gave Adam was an apple—Sullivan.

Strawberries and outdoor mushrooms were picked in the High River district on October 27th.

Yes, Mr. Aberhart, there will be "chaos" in 1940 if you and your government are still at the wheel.

Recently a car was so badly crippled in collision with a house near Lundbreck that it had to be shot.

**BUY YOUR CHRISTMAS CARDS** now at The Enterprise office, and get a Cabinet of Initiated Notepaper FREE.

During the past week we have received quite a number of subscriptions ranging from one to three years in advance.

A Coleman car is resting at Natal, bearing a sign "Expires March 31, 1939." The car, however, practically expired a few weeks ago.

While this issue of The Enterprise bears date of Friday, November 11th—Armistice Day—the day is being observed as a holiday by us.

Blairmore's first experience of zero weather for the fall of 1938 was on Saturday morning last, when thermometers registered just that.

In a recent shoe factory strike in Ontario, many police officers had to put up with a "kick in the pants" viciously administered by women.

According to the press, Mr. Aberhart said nothing about his banned bank-tax legislation in his regular broadcast on Sunday last. Very nice to change the subject to Herridge.

Saturday last was observed in Blairmore as "Poppy Sale Day," and those selling found them in great demand. The poppies were sold under direction of the British Empire Service League branches.

Saturday last was Blairmore's first day of snow that remained on the ground all day. The thermometer in the early morning reached near the zero mark. Some folks actually quit gardening—November 5th.

Rev. A. S. Partington was duly inducted as Vicar of Christ Anglican church, Creston, on Sunday evening last. The ceremony was performed by the bishop of the diocese, Dr. Adams. In addition to Creston, Mr. Partington will have supervision over Yank, Camp Lister and Wynndell.

Those caught in the act of upturning little houses on Hallowe'en night, and next day lined up to replace them, should be called to order again, as there are still a few disturbed structures that were overlooked by the authorities on that occasion, and today represent an eyesore to the public.

Aberhart's "freak legislation" was handed another set-back last week by the Privy Council. It would be interesting to know just how much his nonsense has cost the poor people of this province; but they never will get to know until the present administration is ousted. And those who are considered faithful to him today might just as well be pensioned for life; for it's practically a certainty that the province or the country will have to keep them, anyway. The biggest joke there ever was under command of the biggest jokesters.

### IN MEMORIAM

In Loving Memory of Mrs. Valerie Jean Houbrug, who passed away November 11th, 1938.

We have only your picture, dear Mother,

To remember our whole life through, but the sweethearts will linger forever.

As we treasure the image of you,

—Ever remembered my her loving family.

## Lest We Forget

In Flanders fields the poppies blow  
Between the crosses, row on row,  
That mark our place; and in the sky  
The larks, still bravely singing, fly  
Scarce heard amid the guns below.

We are the Dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie  
In Flanders fields.

Take up our quarrel with the foe:  
To you from failing hand we throw  
The torch: be yours to hold it high.  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders fields.

Lieut.-Col. John McCrae.

F. M. THOMPSON CO.

THE EVENT OF THE AUTUMN SEASON

## St. Anne's Bazaar

3 to 6, Wednesday Afternoon, Nov. 16th

Hand-Embroidered Goods, Cut Work, Aprons, Grab Boxes, Home Cooking, Home-Made Candy, etc. Fish Pond for the Kiddies.

Christmas Novelties

TEA: A FREE CHANCE ON A BEAUTIFUL CAKE  
TO EVERY CUSTOMER.

8 to 12—EVENING ATTRACTIONS—8 to 12

Bingo, Etc. — Tombola Drawing 11.30

Prizes on Display in Blairmore Hardware Window

Columbus Hall — Blairmore, Alberta

## Winter Driving

Have You Had Your Car Checked Over for Winter Driving?  
Frost Shields — Heaters — Anti Freeze  
Winter Oils and Greases  
Only the Best Qualities Handled

WE CAREY  
PHILCO and WESTINGHOUSE RADIOS  
and are Prepared to Give You First-Class Service

## CROWS' NEST PASS MOTORS

CHEVROLET and OLDSMOBILE DEALERS

WESTINGHOUSE REFRIGERATORS
